The European Student Think Tank is a youth-led NGO that involves young people in the European Policy-making process at the heart of EU institutions and national governments.

Bridging the gap between students and Brussels

IMPACT

Composed by an International Board and national representations all over Europe, our mission is make the EU accessible to young people. At a time where Europe is at a crossroads and political polarization threatens the European project, investing in young people is essential to strengthen the European project. To do this we:

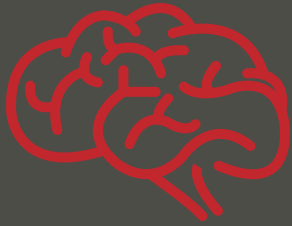

I) Host events in EU institutions and National Parliaments to connect young people and European policy-makers

II) Publish articles, blogs and campaigns about European Affairs on www.esthinktank.com

III) Engage both in policy-writing and advocacy with a pro-European approach

Since September 2016 the EST has hosted two debates in the European Parliament, Sorbonne University, Spanish Parliament and more. Working with the European Commission in consultancy for the European Solidarity Corps, and being invited to high-level events to speak next to EU leaders such as Ms. Federica Mogherini and Mr. Timmermans.

KNOWLEDGE, POLICY AND EXCELLENCE

Our team of Board members, Ambassadors, writers and editors are some of the most passionate and academically driven students over Europe. Balancing their studies with internships in the United Nations, the European Commission, the European Parliament, international media outlets and multinational businesses, our team has knowledge and practical experience in the inner-workings of global policy-making.

HOW THE EST CAN COLLABORATE WITH YOUR ORGANIZATION

I) **OUTREACH:** The EST can promote your projects on our website and social media which targets a large audience of young Europeans; delivered from the credibility and perspective of a youth organization

II) **CONSULTING:** the EST can advise you on youth policy and on how to connect European policies with youth, from a political communications perspective.

III) **EVENTS:** we can collaborate in the organization of international events, debates and conference and you can invite our Board members and Ambassadors to speak at your events on behalf of European Youth.

SPANISH PARLIAMENT YOUTH SESSIONS

Bringing together students, Members of Parliament, Diplomats and academics in Spanish Parliament, the EST has been bridging the gap between policy-making and youth.

Engaging in discussions from European political integration, to the new international world order, to the United Nations and the Sustainable Development goals, we bring politics closer to students & promote the EU and the UN.
